

SECTION 12

TESTING & REPAIR CENTRE

TESTING SERVICES & FACILITIES

- New Zealand's LARGEST Testing Bed with Cookes
- ON & OFF Site Testing Services available
- Tensile Testing available up to 200 tonnes
- WLL testing of lifting equipment
- Full re-testing and repaired products
- Cookes test all sizes of Wire rope, Chains, Fittings, Shackles, Synthetic Slings and many more equipment
- All Test Certificates computer generated showing results in graph form

The Occupation and safety Act makes it the responsibility of the employer to provide safe lifting equipment for his employee.

It is therefore important to have your equipment tested on regular basis depending on how frequently it is used or the environmental conditions it operates in.

It is recommended that this should not exceed 12 months.

TESTING SERVICES

Cookes can offer a testing service at 11 branches throughout New Zealand. There is also a mobile service for testing at your own premises in Auckland, New Plymouth, Tauranga, Wellington, Nelson, Christchurch and Dunedin. Our other 2 branches can carry out visual checks and arrange for proof loading at the nearest Cookes test bed if required. Lifting equipment registers can be supplied free of charge. After testing, Test Certificates are issued in accordance with the relevant standard. Cookes branches and test bed capacities are listed as below.

Branch	Address	Tonnage
